

SSS2.6 Vulnerability of the Mediterranean Soils to Water Erosion – State of knowledge and adaption strategies in the face of global change.

Convener: Feliciano Licciardello (flicciar@unict.it), Co-Convener: Damien Raclot (damien.raclot@ird.fr)

Check dam in Tunisia

Small reservoir in Tunisia

Bench terraces in Morocco

Crescent shape gradoni in Morocco

View of the Etna volcano in Sicily

Small weir in Sicily

Main aims of this session:

1. to review the present state of knowledge on the vulnerability of the Mediterranean soil in the face of water erosion
2. to answer to the various questions related to soil water erosion in the face of climatic change
3. to pinpoint the innovating sustainable strategies of adaptation in Mediterranean areas.
4. to promote collaborations between North-South researchers
